This collaborative study between the NRC and the Chinese Academy of Engineering (CAE) addresses the problems facing China in the next twenty years as it attempts to provide personal transport desired by millions of Chinese, while preserving the environment and the livability of its cities. According to Song Jian, president of the CAE, the decision has already been taken to produce a moderate cost family car in China, which will greatly increase the number of vehicles on the roads. This study explores the issues confronting the country, including health issues, the challenge to urban areas, particularly the growing number of megacities, environmental protection, infrastructure requirements, and technological options for Chinese vehicles. It draws on the experience of the United States and other countries and review model approaches to urban transportation and land use planning. Recommendations and policy choices for China are described in detail.

East Asia is a region that holds much fascination for many people. It is one of the world's most dynamic and diverse regions and is also becoming an increasingly coherent region through the inter-play of various integrative economic, political and socio-cultural processes. Such a development is generally referred to as 'regionalism', which itself has become a defining feature of the contemporary international system, and this book explores the various ways in which East Asian regionalism continues to deepen. Focusing on the main themes of the East Asia region and the study of regionalism, economic regionalism and East Asia's new economic geography, Southeast Asia and the Association of Southeast Asian Nations (ASEAN), trans-regionalism, East Asia's new free trade agreement trends and key transnational issues in East Asia such as international migration and energy security, East Asian Regionalism will be an essential text for courses on East Asian regionalism, Asian politics and Asian economics. Key pedagogical features include: end of chapter 'study questions' case studies that discuss topical issues with study questions also provided useful tables and figures which illustrate key regional trends in East Asia extensive summary conclusions covering the chapter's main findings from different international political economy perspectives.

The Ghost of BIG TOM is a story of a familys saga. Big Tom a slave brought and used as a breeder by his master on a plantation in Murfreesboro, North Carolina... cast a ghost over his ancestors for generations to come. Big Toms legend a virile man who fathered children to feed the slave trade defines the passage of manhood from slavery to modern times amongst the NEWSOMES. Cedric Newsome, Big Toms great-great grandson struggles to overcome the Newsomes definition of manhood which was through their ability to bed women and sire children. Through a process of self-examination, Cedric arrives at a new concept and definition of manhood remodeled with a sense of fidelity, responsibility, and accountability toward oneself and his off-spring. The GHOST OF BIG TOM offers history, suspense, murder, love, and wisdom. Its a must read!

Like its eponymous cousin, *Say Hey Little Prince* transpires over eight eventful days, not in the Sahara Desert, but during the opening week of a modern professional baseball season. This is the story of a Phenom, who pitches the most perfect game, imparts wisdom, and departs without saying goodbye.

Haynes manuals are written specifically for the do-it-yourselfer, yet are complete enough to be used by professional mechanics. Since 1960 Haynes has produced manuals written from hands-on experience based on a vehicle teardown with hundreds of photos and illustrations, making Haynes the world leader in automotive repair information.
