Even though they attend a school of gifted students in New York City, child geniuses Louise Mayer and her twin sister Jillian have always felt alone in the world, isolated by their brilliance. Shortly before their ninth birthday, they make an amazing discovery. They're not alone. Their real mother was astronaut Esme Shenske and their father was the famous inventor, Leonardo Dufae. They have an older sister, Alexander, living on the planet of Elfhome, and four siblings still in cryogenic storage at the fertility center. There's only one problem: the frozen embryos are scheduled to be destroyed within six months. The race is on to save their baby brother and sisters. As a war breaks out on Elfhome and riots start in New York City, the twins use science and magic to plow over everything standing in their way. But when they come face to face with an ancient evil force, they're soon in over their heads in danger. At the publisher's request, this title is sold without DRM (Digital Rights Management). About Wen Spencer's Elfhome series: \_Spencer's intertwining of current Earth technology and otherworldly elven magic is quite ingenious. \_Booklist About Wen Spencer: \_Wit and intelligence inform this off-beat, tongue-in-cheek fantasy. . . . Furious action . . . good characterization, playful eroticism and well-developed folklore. . . . lift this well above the fantasy average. . . . Buffy fans should find a lot to like in the book's resourceful heroine. \_Publishers Weekly on series debut Tinker About Wen Spencer's Eight Million Gods: \_Eight Million Gods is a wonderfully weird romp through Japanese mythology, culture shock, fan culture and the ability to write your own happy ending. It is diverting and entertaining fantasy." \_Galveston County Daily News The Elfhome Series Tinker Wolf Who Rules Elfhome Wood Sprites

The New York Times bestseller author of Dangerous Minds has a new way to engage students LouAnne Johnson's newest book is a collection of fun and simple educational icebreaker activities that get students excited and engaged from the very first minute of class. These activities are great to use with students at all levels, and many of the activities include variations and modifications for different groups. Research has shown that the use of icebreakers increases student motivation by creating an emotional connection between the student and school. In as little as five minutes, a creative icebreaker can

engage students' brains, encourage critical thinking, and much more. Includes a fun-filled collection of icebreakers that get students thinking and keeps them engaged Written by LouAnne Johnson, a teacher and acclaimed author of eight books Contains ideas for promoting creativity, unifying the classroom community, preventing disruptive behavior, and creating positive attitudes towards school and learning No matter what your students' age group this book will give you the tools you need to create a classroom environment that promotes learning.

Relevant and interesting activities make math more meaningful for students as they see the important role it plays in their lives every day.
