DAY 3 – Legs, Shoulders & Abs SQUATS – Starting off this workout is the squats. Considered the best exercise for the legs, this will involve over 250 muscles in the body and require a massive amount of energy to perform. Keep the core tight and always push through the heels while keeping the back straight.

3) Every other day , ex: sun – tues -thurs – sat . This is the split you will find the average hobbyist bodybuilder following. This routine works but in order to meet the requirements of always training four days out of the week, you will have to train on consecutive days certain weeks other wise you will run into issues of only training three times a week on certain weeks.
