Cave organisms are the 'monsters' of the underground world and studying them invariably raises interesting questions about the ways evolution has equipped them to survive in

# Get Free Caves Link Springer

permanent darkness and low-energy environments.

Undertaking ecological studies in caves and other subterranean habitats is not only challenging because they are difficult to access, but also because the

# Get Free Caves Link Springer

domain is so ...

## **Cave Ecology | SpringerLink**

Karst caves are characterized by darkness, low temperature, high humidity, and oligotrophic organisms due to its

# Get Free Caves Link Springer

relatively closed and strongly zonal environments. Up to now, 1626 species in 644 genera of fungi have been reported from caves and mines worldwide. In this study, we investigated the culturable mycobiota in
