The following is a list of colors. A number of the color swatches below are taken from domain-specific naming schemes such as X11 or HTML4. RGB values are given for each swatch because such standards are defined in terms of the sRGB color space. It is not possible to accurately convert many of these swatches to CMYK values because of the differing gamuts of the two spaces, but the color ...

Colour - Simple English Wikipedia, the free encyclopedia

RGB color values are supported in all browsers. An RGB color value is specified with: `rgb (red, green, blue)`. Each parameter (red, green, and blue) defines the intensity of the color as an integer between 0 and 255. For example, `rgb (0, 0, 255)` is rendered as blue, because the blue parameter is set to its highest value (255) and the others are set to 0.

Paint Colours - Farrow & Ball

White is the presence of all colours. It is a neutral colour just like black and grey.

Many associate this colour with innocence, purity, safety, illumination, sincerity, softness, perfection, goodness, cleanliness and humility. However, it is also associated with coldness, sterility and, in some cultures, death.
