Defining Moments: When Managers Must Choose Between Right ...

Defining moments are important according to Professor Badaracco in that they reveal basic values, test the strength of commitment, and shape the character of both individuals and organizations. To illustrate these points, Professor Badaracco uses three case studies. Each involves conflicts between competing moral im-peratives confronting managers at different levels of seniority. For the purposes

When Business and Personal Values Collide "Defining moments" occur when managers face business decisions that trigger conflicts with their personal values. These moments test a person's commitment to those values and ultimately shape their character. But these are also the decisions that can make or break a career. Is there a thoughtful, yet pragmatic, way to make the right choice? Bestselling author Joseph Badaracco shows how to approach these dilemmas using three case examples that, when taken together, represent the escalating responsibilities and personal tests managers face as they advance in their careers. The first story presents a young manager whose choice will affect him only as an individual; the second, a department head whose decision will influence his organization; the third, a corporate executive whose actions will have much larger, societal ramifications. To guide the decision-making process, the book draws on the insights of four philosophers--Aristotle, Machiavelli, Nietzsche, and James--who offer distinctly practical, rather than theoretical, advice.Defining Moments is the ultimate manager's guide for resolving issues of conflicting responsibility in practical ways.

When Business and Personal Values Collide "Defining moments" occur when managers face business decisions that trigger conflicts with their personal values. These moments test a person's commitment to those values and ultimately shape their character. But these are also the decisions that can make or break a career. Is there a thoughtful, yet pragmatic, way to make the right choice? Bestselling author Joseph Badaracco shows how to approach these dilemmas using three case examples that, when taken together, represent the escalating responsibilities and personal tests managers face as they advance in their careers. The first story presents a young manager whose choice will affect him only as an individual; the second, a department head whose decision will influence his organization; the third, a corporate executive whose actions will have much larger, societal ramifications. To guide the decision-making process, the book draws on the insights of four philosophers--Aristotle, Machiavelli, Nietzsche, and James--who offer distinctly practical, rather than theoretical, advice. Defining Moments is the ultimate manager's guide for resolving issues of conflicting responsibility in practical ways.

"Defining moments," according to Badaracco, occur when managers face business problems that trigger difficult, deeply personal questions. In deciding how to act, managers reveal their inner values, test their commitment to those values, and ultimately shape their characters. Badaracco builds a framework for approaching these dilemmas around three cases of increasing complexity, reflecting the escalating responsibilities managers face as they advance in their careers. The first story presents a young man whose choice will affect him only as an individual; the second, a department head, whose decision will influence his organization; the third, a corporate executive, whose actions will have much larger, societal ramifications. To guide the decision-making process, Badaracco draws on the insights of four philosophers--Aristotle, Machiavelli, Nietzsche, and James--because they offer practical rather than theoretical advice. He thus bridges the gap between classroom philosophy and corporate pragmatism. The result is a flexible framework that managers can draw on to resolve issues of conflicting responsibility in practical ways.

This is a book about work choices & life choices & the critical points-or defining moments-at which the two become one. It examines the right-versus-right conflicts that every business manager faces & presents an unorthodox yet practical way for managers to think about & resolve them. According to Badaracco, when making hard professional decisions necessitates using personal values as a touchstone, resolving such dilemmas is not as simple as the inspirational "do the right thing" school of ethics would have you believe. Defining Moments reveals an alternative approach that helps managers tackle the more complex & troubling question of what to do when doing the right thing requires doing something else wrong, or leaving another right thing undone. Drawing on philosophy, literature, & three stories that reveal the increasing complexity managers face as their careers advance, Defining Moments provides tangible examples, actionable steps, & a flexible framework that managers at all levels can use to make the choices that will shape not only their careers but their characters.

The New York Times bestselling authors of Switch and Made to Stick explore why certain brief experiences can jolt us and elevate us and change us--and how we can learn to create such extraordinary moments in our life and work. While human lives are endlessly variable, our most memorable positive moments are dominated by four elements: elevation, insight, pride, and connection. If we embrace these elements, we can conjure more moments that matter. What if a teacher could design a lesson that he knew his students would remember twenty years later? What if a manager knew how to create an experience that would delight customers? What if you had a better sense of how to create memories that matter for your children? This book delves into some fascinating mysteries of experience: Why we tend to remember the best or worst moment of an experience, as well as the last moment, and forget the rest. Why "we feel most comfortable when things are certain, but we feel most alive when they're not." And why our most cherished memories are clustered into a brief period during our youth. Readers discover how brief experiences can change lives, such as the experiment in which two strangers meet in a room, and forty-five minutes later, they leave as best friends. (What happens in that time?) Or the tale of the world's youngest female billionaire, who credits her resilience to something her father asked the family at the dinner table. (What was that simple question?) Many of the defining moments in our lives are the result of accident or luck--but why would we leave our most meaningful, memorable moments to chance when we can create them? The Power of Moments shows us how to be the author of richer experiences.

Badaracco (business ethics, Harvard) observes that the most effective leaders are rarely public heroes or high-profile champions of causes. His study of "quiet leadership," carried out over four years, presents a series of stories describing quiet leaders at work and drawing practical lessons for executives and aspiring corporate leaders. The cases include a hospital CEO dealing with a case of sexual harassment; a bank president under pressure to remove underperforming but longtime employees; and a high-tech marketing rep who learned that his company was dumping obsolete equipment on its small customers. Leadership is struggle The question of how to lead successfully and responsibly is crucially important in our uncertain, high-pressure, turbulent world. In this book, Harvard Business School Professor Joseph Badaracco answers this question in practical and, at times, provocative ways. Leaders today are surrounded by what Badaracco calls "the new invisible hand"--powerful, pervasive markets that touch and shape almost everything. As a result, understanding the inevitability and importance of struggle is critical. And leaders must go a step further to create what Badaracco calls "the good struggle" in order to meet their goals at work, as well as their goals in life. The Good Struggle helps you meet the relentless challenges of being a leader today by identifying the most important questions you should be asking yourself. New answers to these questions can be found by watching leaders in dynamic settings, especially entrepreneurs. The conditions entrepreneurs have always faced--intense competition, scarce resources, and unforgiving markets--are true now for the rest of us, and they offer valuable, practical lessons about struggling and succeeding in volatile and uncertain environments. If "the joy of life is in the struggle," as one thoughtful entrepreneur put it, The Good Struggle can help you find meaning in your work, stay focused on what matters despite the turbulence around you, and keep you on the path to leading successfully and responsibly.

Explains the author 's concept of ?cohorts?, a new way of looking at age groups by examining what affected people in their formative years of 17-21. Outlines the seven generational groups that are currently affecting the workplace?and the new ones that are emerging. Presents new managing models and practical advice, based on the author's experience with Fortune 500 companies, for working effectively with various age groups. Discusses key physical, socioeconomic, and emotional factors that influence a particular generation's behavior or profile.

How to find clarity amid the turbulence of work and life We all wish we had more time to pause and reflect about small decisions and big goals--and everything in between. But since we live and work in a vortex of tasks, meetings, decisions, and responsibilities, we rarely get the chance to step back. In this practical guide, bestselling author and Harvard Business School professor Joseph Badaracco argues that you don't need long periods of solitude and tranquility to reflect well. In fact, reflection can take place in the cracks and crevices of your very busy life, and these moments can help you understand your feelings, look at problems from different perspectives, focus on what really matters, and, ultimately, lead a better life. Building on candid interviews with over a hundred executives and professionals, as well as on the classic works of Marcus Aurelius, Michel de Montaigne, and Ignatius of Loyola, Badaracco offers simple, customizable principles and ideas for reflection that lend a gentle discipline to an otherwise nebulous process. Concise, smart, and pragmatic, Step Back is the guide you need to make reflection a positive force in your work and life.

"Defining Moments is a deeply honest, personal and at times moving account of one man's voyage of self-discovery. Through a series of 'defining moments,' Kees shows how personal crises and professional challenges can not only be overcome but can also be used to help give greater purpose and meaning to life - to help make the individual stronger, the family more cohesive and the organization more united." Paul Polman, Chief Executive Officer, Unilever
