Caldecott Medal winner Allen Say brings his lavish illustrations and hybrid narrative and artistic styles to the story of artist James Castle. James Castle was born two months premature on September 25, 1899, on a farm in Garden Valley, Idaho. He was deaf, mute, autistic, and probably dyslexic. He didn't walk until he was four; he would never learn to speak, write, read, or use sign language.Yet, today Castle's artwork hangs in major museums throughout the world. The Philadelphia Museum of Art opened "James Castle: A Retrospective" in 2008. The 2013 Venice Biennale included eleven works by Castle in the feature exhibition "The Encyclopedic Palace." And his reputation continues to grow.Caldecott Medal winner Allen Say, author of the acclaimed memoir Drawing from Memory, takes readers through an imagined look at Castle's childhood, allows them to experience his emergence as an artist despite the overwhelming difficulties he faced, and ultimately reveals the triumphs that he would go on toachieve.

"A companion to the Sibert Honor Book 'Drawing from memory' by Caldecott Medal winner Allen Say"--Jacket.

In his Caldecott acceptance speech for GRANDFATHER'S JOURNEY, Allen Say told of his difficulty in separating his dreams from reality. For him this separation was not as important as finding a meaning behind the contradictions and choices we all must make in life and their consequences. Early one morning a boy comes into town, hungry, and looking for work. He meets a sign painter who takes him on as a helper. The boy yearns to be a painter. The man offers him security. The two are commissioned to paint a series of billboards in the desert. Each billboard has one word, Arrowstar. They do not know its meaning. As they are about to paint the last sign, the boy looks up and sees in the distance a magnificent structure. Is it real? They go to find out. Through a simple text and extraordinary paintings, the reader learns of the temptation of safe choices and the uncertainties of following a personal dream. Here Allen Say tells a haunting and provocative story of dreams and choices for readers of all ages.

The Kamishibai man used to ride his bicycle into town where he would tell stories to the children and sell them candy, but gradually, fewer and fewer children came running at the sound of his clappers. They were all watching their new televisions instead. Finally, only one boy remained, and he had no money for candy. Years later, the Kamishibai man and his wife made another batch of candy, and he pedaled into town to tell one more storyhis own. When he comes out of the reverie of his memories, he looks around to see he is surrounded by familiar facesthe children he used to entertain have returned, all grown up and more eager than ever to listen to his delightful tales. Using two very different yet remarkable styles of art, Allen Say tells a tale within a tale, transporting readers seamlessly to the Japan of his memories.
