Getting started¶. In addition to supporting the representation of data and associated WCS, it is also possible to attach a boolean mask to the SpectralCube class. Masks can take various forms, but one of the more common ones is a cube with the same dimensions as the data, and that contains e.g. the boolean value True where data should be used, and the

9. Lay the second mask in the middle of the left side of the poster board, and run a small bead of hot glue completely around the edge of the mask to glue it to the poster board. You should now have a convex mask protruding from the left side of the poster board and a concave mask indented into the right side, as shown in figure 1. Figure 1

natural method of dealing with disagreements is avoiding any kind of conflict by getting away from that place as fast as you can. Sometimes this can be regarded as a good thing, but other times, it may lead to a number of issues that are brewing up within you, for which you will have to address soon.
