A saga of survival, technological innovation, and breathtaking human physical achievement -- all set against the backdrop of a world headed toward war -- that became one of the most compelling international dramas of the 20th century. While tension steadily rose between European powers in the 1930s, a different kind of battle was raging across the Himalayas. Contingents from Great Britain, Nazi Germany, and the United States had set up rival camps at the base of the mountains, all hoping to become recognized as the fastest, strongest, and bravest climbers in the world. Carried on across nearly the entire sweep of the Himalayas, this contest involved not only the greatest mountain climbers of the era, but statesmen and millionaires, world-class athletes and bona fide eccentrics, scientists and generals, obscure villagers and national heroes. Centered in the 1930s, with one brief, shining postwar coda, the contest was a struggle between hidebound traditionalists and unknown innovators, one that featured new techniques and equipment, unbelievable courage and physical achievement, and unparalleled valor. And death. One Himalayan peak alone, Nanga Parbat in Kashmir, claimed twenty-five lives in less than three years. Climbing the Himalayas was the Greatest Generation's moonshot -- one shrouded in the onset of war, interrupted by it, and then fully accomplished. A gritty, fascinating history sure to enrapture fans of Hampton Sides, Jon Krakauer, and Laura Hillenbrand, *The World Beneath Their Feet* brings this forgotten story back to life.

This true story of spiritual mountain adventure is told by a trekking group's leader, a teacher of Tibetan Buddhism, and one of its members, a student struggling to acclimate both physically and emotionally to his surroundings.

A gorgeous work of literary journalism that follows a nomadic family's fraught migration to the high Himalayan plains, as a changing world closes in around them. Following his vivid account of traveling with one of the last camel caravans on earth in *Men of Salt*, Michael Benanav now brings us along on a journey with a tribe of forest-dwelling nomads in India. Welcomed into a family of nomadic water buffalo herders, he joins them on their annual spring migration into the Himalayas. More than a glimpse into an endangered culture, this superb adventure explores the relationship between humankind and wild lands, and the dubious effect of environmental conservation on peoples whose lives are inseparably intertwined with the natural world. The migration Benanav embarked upon was plagued with problems, as government officials threatened to ban this nomadic family—and others in the Van Gujjar tribe—from the high alpine meadows where they had summered for centuries. Faced with the possibility that their beloved buffaloes would starve to death, and that their age-old way of life was doomed, the family charted a risky new course, which would culminate in an astonishing mountain rescue. And Benanav was arrested for documenting the story of their plight. Intimate and enthralling, *Himalaya Bound* paints a sublime picture of a rarely-seen world, revealing the hopes and fears, hardships and joys, of a people who wonder if there is still a place for them on this planet. Laced with stories of tribal cultures from India to Yellowstone, from Jordan to Kenya, Benanav deftly wends through the controversial terrain where Western ways of protecting the environment clash with indigenous understandings of nature. *Himalaya Bound* celebrates and mourns an ancient way of life, while revealing an unlikely battleground in the fight to save the earth.

A laugh-out-loud travel memoir that reveals backpacking 's awkward side. Sue, a disenchanted waitress, embarks upon a year-long quest around the world with her friend, Sara—who 's exasperatingly perfect. Expecting a whimsical jaunt of self-discovery, Sue instead encounters an absurd series of misadventures that render her embarrassed, terrified, and queasy (and in a lot of trouble with Philippine Airlines). Whether she 's fleeing from ravenous lions, dancing amid smoking skulls, trekking Annapurna underprepared, or (accidentally) drugging an Englishman, Sue 's quick-witted, self-deprecating narrative might just inspire you to take your own chaotic adventure.

WINNER OF THE 2016 EDWARD STANFORD ADVENTURE TRAVEL BOOK OF THE YEAR AWARD 'Levison Wood has breathed new life into adventure travel.' His journey of discovery along the path of the ancient trade route of the Silk Road to the forgotten kingdom of Bhutan led him beyond the safety of the tourist trail. There lies the real world of the Himalayas, where ex-paratrooper Levison Wood encountered natural disasters, extremists, nomadic goat herders, shamans (and the Dalai Lama) in his 1,700-mile trek across the roof of the world. WALKING THE HIMALAYAS is a tale of courage, stamina and the kindness of strangers that will appeal to the adventurer in us all.
