Implosion An Economic Thriller About

Implosion: This economic thriller takes the reader on a sometimes scary ride through a life time of work in developing countries. The story reflects on sometimes highly personal insights of a development worker on how the industrial giants would like to secure raw materials from the Third World on the cheap.

The Arizona woman who demolished a Target store’s pandemic mask display in a viral video last July says the conspiracy cult known as QAnon fueled her –spectacular– public breakdown. Melissa Rein Lively, 35, says she descended into the dark world of QAnon’s discredited claims about child trafficking and the coronavirus...

there, at the main entrance of the World Bank was this large inscription " Our Dream is a World Free of Poverty." He couldn't go wrong, he thought. Today, he often thinks the sentence should have been completed: " And we make sure it will just remain a dream." In this riveting economic thriller, Paul Jordon, a renegade World Banker, and Moni Cheng, an Andean woman who leads a socio-environmental nongovernmental organization in the Peruvian Amazon, endure kidnappings, bombings, and deadly chases in their fight against boundless capitalism, destructive economic policies, and corporate greed that are wreaking worldwide social injustice and destroying the globe's richest zones of biodiversity. Together, Jordon and Cheng expose corporate ruthlessness, military brutality, and Machiavellian economic policies of the foremost financial ivory towers of Washington, the World Bank, and the International Monetary Fund. With other visionaries from around the globe, Jordon and Cheng untiringly disseminate truth and candid information about the calamities caused by this cruel machinery. And against all odds, they mobilize the power of the people. Richly detailed, grounded in actual events and statistics, and complete with notes from author and former World Bank economist Peter Koenig, Implosion is both an unsettling, gripping novel and a powerful commentary on the realities of the modern world's corporatocracy.

International political expert Rosenberg tackles the question: Is America an empire in decline or a nation poised for a historic Renaissance? This book helps readers understand the economic, social, and spiritual challenges facing the United States through Biblical prophecy.

The 2019 novel Corona Virus, now COVID-19, stole global headlines in the opening months of 2020, and its many impacts are still to play out. The common adage, –If the US sneezes, the world catches a cold– is now demonstrable in a multiplicity of ways, but it is China that has sneezed. This anthology provides insight into the nature of global pandemics such as SARS, MERS, Ebola and HIV/AIDs, then focuses on Wuhan, where COVID-19 broke out -- though patient zero is as yet unknown. It examines the massive effort that China has undertaken since the outbreak to contain its spread, and includes personal stories of the first lockdown experiences. But the impact may be even more grave on the global economy than it is on global health. National and international analysts address the economic impact both within China’s industrial heartland and on global business, as borders close, entire regions are on lockdown, world airlines cancel flights, major US corporations in China shut their doors, factory floors empty. and global supply chains break down, millions lose their jobs and small businesses tank.. Stocks and the prices of gold and oil are impacted. Soon after the COVID-19 outbreak was announced and the extraordinary quarantine response by China was effected, it was learned that Event 201, a global coronavirus pandemic simulation was held just months earlier, in which a global coronavirus pandemic killed 65 million people. Many questions arise concerning Big Pharma's push for vaccines, and the mainstream dismissal of the possibility of alternative treatments such as HCQ. Other disturbing questions have arisen: Has the disruption been overblown to inflict damage on China as part of a trade war? On the United States, which faces massive damage to its economy in the midst of an increasingly bitter political divide? What are the biowarfare implications –in the Wuhan instance, where China’s first BSL-4 level laboratory is situated, or in the future in general, given the spread of BSL-4 level laboratories worldwide and most extensively the US, as states and private entities conduct research into germ warfare, including the use of bat-generated viruses, for both offensive and defensive purposes, putting the entire world at risk of accidental leakage or worse? Is this truly a pandemic -- or is it a plandemic, and if so, to what end? What are the likely consequences, intended and not.

Much has been written about money-how to invest, save, become a millionaire, get out of debt, find financial freedom, change the monetary system, manage a business, hedge or save taxes. So what makes this book stand out from those already in the bookshops? Written for lay reader and expert alike, 30 Lies is a response to a newly emerging trend, where peoples' interest in money is not just to try and make more of it. But to understand better the causes of the increasingly contradictory money world they find themselves in. Some of the issues: income inequity, increasing stress in making ends meet, decay of social systems, evaporation of pensions, polarisation of wealth, third-world indebtedness, Enrons and more. This book promises a simple understanding of these issues. But it goes further. This book not only exposes misleading flaws and "lies" in many universally accepted and unquestioned assumptions about money-it dissolves them! Things they didn't say after reading this book: "Anyone interested in the truth must buy this book." George W. Bush "This book has been very helpful. Now I know for sure there is nothing in the world more important than money." Deepak Chopra "Great book-turns economics on its head." soroS egroeG "This explains it-why God has gone bankrupt and we're still in business." Pope John Paul II "Peter Koenig-They should lock him up and throw away the key!" Dermot Fitzpatrick

Presents a look at the economics and psychology of the contemporary art market and examines the dominant role of a few auction houses

and high-end galleries in setting its prices.

Three brilliant entrepreneurs join an attempt to save the country from economic implosion one year after elections. On behalf of a silenced majority, the trio's technical expertise is launched against the criminals directing a new socialist regime in Washington. Constantly fearing for their lives, the three entrust Jason West with their safety. A security expert, Jason barely survived the last attempt to eliminate them. America's global enemies are secretly exploiting the Capitol's failures, especially the struggle against man-made climate change.

The Republic of Ireland, which declared itself in 1949, allowed the Catholic Church to dominate its civil society and education system. Investment by American and European companies, and a welcoming tax regime, created the 'Celtic Tiger' of the 1990s. That brief burst of good fortune was destroyed by a corrupt political class which encouraged a wild property boom, leaving the country almost bankrupt. What Ireland needs now is a programme of real change. It needs to become a fully modern republic in fact as well as name. This disastrous economic collapse also allows us to think through the kind of multiculturalism that Ireland needs, and to build institutions that can accommodate the sudden influx of migrants who have come to Ireland in the past 15 years. The State should take over the entire education system, for which it pays already, and make it fit for the 21st century. The political system is dysfunctional and is one of the main causes of the debacle we have just experienced. Ireland needs constitutional reform. Politicians have been let get away with murder, and there is a fatalistic sense that nothing can change. The country needs to encourage participation in, and oversight and knowledge of politics, to make people feel that they have a right to challenge the old party machines and to make a difference. It is their country, after all.

A "searing memoir of loss and redemption" (People) that "exposes the side of The Wolf of Wall Street we didn't get to see" (Metro), *After Perfect* is a cautionary tale about one family's destruction in the wake of the Wall Street implosion. Selected as one of the year's "Fifteen Books You Need to Read" by the Village Voice, Christina McDowell's unflinching memoir is "a tale of the American Dream upended." Growing up in an affluent Washington, DC, suburb, Christina and her sisters were surrounded by the elite: summering on Nantucket Island, speeding down Capitol Hill's rich back roads, flying in their father's private plane. Their life of luxury was brutally stripped away after the FBI arrested Tom Prousalis on fraud charges. When he took a plea deal as he faced the notorious Wolf of Wall Street Jordan Belfort's testifying against him, the cars, homes, jewelry, clothes, and friends that defined the family disappeared before their eyes, including the one thing they could never get back: each other. Christina writes with candid clarity about the dark years that followed and the devastation her father's crimes wrought upon her family: the debt accumulated under her identity; her mother's breakdown; her own spiral into addiction and promiscuity; and the delusion that enveloped them all. She shines a remarkable, uncomfortable light on a family's disintegration and takes a searing look at a controversial financial time and also at herself, a child whose "normal" belonged only to the one percent. A rare, insider's perspective on the collateral damage of a fall from grace, *After Perfect* is a poignant reflection on the astounding pace at which a life can change and how blind we can be to the ugly truth.

This instant New York Times bestseller offers a withering view of life on Wall Street from the perspective of an unhappy insider who is too hooked on the money to find a way out, even as his career is ruining his marriage and corroding his soul. It's 2005. Nick Farmer is a thirty-five-year-old bond trader with Bear Stearns clearing seven figures a year. The novelty of a work-related nightlife centering on liquor, hookers, and cocaine has long since worn thin, though Nick remains keenly addicted to his annual bonus. But the lifestyle is taking a toll on his marriage—and on him. When a nerdy analyst approaches him with apocalyptic prognostications of where Bear's high-flying mortgage-backed securities trading may lead, Nick is presented with the kind of ethical dilemma he's spent a lifetime avoiding. Throw in a hot financial journalist who seems to be more interested in him than in the percolating financial Armageddon and the prospect that his own wife may have found a new romantic interest of her own, and you have the recipe for Nick's personal and professional implosion. By turns hilarious and harrowing, *Ghosts of Manhattan* follows a winning but flawed protagonist as he struggles to find the right path in a complicated urban heart of darkness

A New York Times, USA TODAY, and Publishers Weekly bestseller! More than 100,000 copies sold "Rosenberg cranks up the suspense, delivering his most stunning, high-stakes thriller yet." "Publishers Weekly "A stellar novel of riveting action and political intrigue." "Mark Greaney, #1 New York Times bestselling author of *Agent in Place* "Absolutely blown away by how good this guy is. . . . Simply masterful." "Sean Parnell, New York Times bestselling author of *Outlaw Platoon* "An uncanny talent for focusing his storytelling on real-world hot spots just as they are heating up." "Porter Goss, former director of the CIA "A full-throttle and frightening ride through tomorrow's headlines." "Brigadier General (U.S. Army, Retired) A. J. Tata, bestselling author of *Direct Fire* New York Times bestselling author Joel C. Rosenberg returns with a high-stakes political thriller set in Russia. Everything he learned to protect our president, he must use to take out theirs. With an American president distracted by growing tensions in North Korea and Iran, an ominous new threat is emerging in Moscow. A czar is rising in the Kremlin, a Russian president feverishly consolidating power, silencing his opposition, and plotting a brazen and lightning-fast military strike that could rupture the NATO alliance and bring Washington and Moscow to the brink of nuclear war. But in his blind spot is former U.S. Secret Service agent Marcus Ryker, trained to protect but ready to kill to save his country.
