5 speed manual transmission problems - Jeep Patriot Forums  
The Patriot cvt transmission is faulty and subject to early transmission failure. Around 90,000 miles, my transmission began overheating. This happens while traveling on the highway going an average of 65-70mph for more than an hour, transmission overheat warning light turns on and car begins to lose power.

Jeep Patriot Transmission Failure Problems  
2012 Jeep Patriot Problems. The 201 had almost the same number of issues as the previous years but the top category of concern focuses on the transmission. The top issues focus on the transmission overheating, the transmission slipping, the transmission failing, and the transmission hose cracking.

Jeep Patriot Problems ? Everything You Need To Know  
2008 Jeep Patriot with a manual transmission and a 2.4L engine I installed brand-new iridium spark plugs at 78000 miles. The car is now 133, 000 miles. I am feeling short, intermittent sudden single hesitations in the engine upon changing from idling to drive (the engine feels like it will talk for a fraction of a second, and then it regains it's power).
