**The New Science Of Giambattista Vico : Goddard Bergin ...**

Despite that this historic book 'New Science' by Giambattista Vico (written around 1744) is one which broke new ground in studying ancient myths, law, and history, I cannot get past his constant boosting of Christianity as being so clearly superior to all other religions especially since his belief is that the Christian God is real while these other gods are barbaric.

**New Science by Giambattista Vico - Goodreads**

Vico's New Science acknowledges the power of the advances made by Newton and Leibniz, referring to them as “the two foremost minds of our age” (Vico, New Science, p. 104). Rationalism and empiricism in Enlightenment thought In the seventeenth century, science still belonged to the larger discipline of philosophy.
