Oracle® BPEL Process Manager

Implementing the process in BPEL PM. In BPEL PM, as in WLI, every BPEL process executes in the context of one or more transactions. When a process starts to execute, the process manager does one of two things with transactions: 1. It starts a new transaction for the process. 2. It enlists the process in an already open transaction.

Working with Transactions - Oracle

The Oracle BPEL Process Manager provides a developer-friendly and reliable solution for designing, deploying and managing BPEL business processes. The BPEL Designer provides a graphical and user-friendly way to build BPEL processes. What is unique about the Oracle BPEL Designer is that it uses BPEL as its native format.
