Participatory Project Planning And Management

Taking a participatory approach to planning and to monitoring and evaluation (M&E) implies a shift in power from aid actors to people. It is the people who set the direction for change. They plan their priorities. It is they who decide whether a programme makes progress, delivers and is relevant.

Part 3: Community-based Participatory Planning

Undoubtedly participative approach to management increases the stake or ownership of employees. But there is more to it. The following points elucidate the same. Increase in Productivity: An increased say in decision making means that there is a strong feeling of association now.

Advantages and Disadvantages of Participative Management

Read Free Participatory Project Planning And

A participatory planning process - one in which all the stakeholders are involved - is often the most effective and inclusive way to plan a community intervention. A participatory process provides community ownership and support of the intervention; information about community history, politics, and past mistakes; and respect and a voice for everyone.

Management reputation in the use of participatory approaches in the following areas: ♦ project design and project management ♦ needs assessment, monitoring and evaluation

PARTICIPATORY APPROACHES

Usually it is outside experts who take charge. Participatory monitoring and evaluation (PM&E) is a different approach which involves local people, development agencies, and policy makers deciding together how progress should be measured, and results acted upon. It can reveal valuable lessons and improve accountability.
