Pupils learn to weigh up the value of wisdom from different sources, to develop and express their insights in response and to agree or disagree respectfully. Teaching therefore should equip pupils with systematic knowledge and understanding of a range of religions and beliefs, enabling them to develop their ideas, values and identities.

This text is designed for GCSE short courses in religious education.

A Study In The Tendencies Of Asiatic Mentality.

This collection of simple-to-use activities will jumpstart students' understanding of the world's religions and belief systems. A wealth of activities, including discussion techniques, group tasks and thought experiments, guides the teacher in delivering stimulating and imaginative RE lessons. Based around religions' sacred texts, beliefs, leaders, spaces and festivals, this indispensable and practical guide covers all major belief systems including: Judaism Christianity Islam Humanism Hinduism Buddhism Sikhism Jainism Far East traditions. Jumpstart! Religious Education is an essential classroom resource to encourage students'

engagement with and comprehension of religions around the world. If you are a trainee, newly-qualified or experienced teacher looking for a range of quick, effective, fun and challenging ways to teach about religion, then this is the perfect book for you.

Religious Education in the Secondary School is a comprehensive, straightforward introduction to the effective teaching of Religious Education in the secondary classroom. Acknowledging the highly valuable yet often misunderstood contribution of RE, this text shows how the subject can be taught in a way that explores the impact of religion on the lives of people and society, engaging pupils and preparing them to become individuals who celebrate and respect diversity. It is illustrated throughout with ideas for teaching at different key stages and offers expert chapters introducing you to both the World Religions and the core aspects of effective teaching and learning. With an emphasis on developing an understanding of the importance - and different ways - of meeting the learning needs of all pupils, key chapters cover:

- Understanding different pedagogies of RE
- Spirituality and RE
- Tips on effective planning and assessment
- An approach to teaching across the Key Stages
- Core subject knowledge in Buddhism, Christianity, Hinduism, Islam, Judaism and Sikhism

Written by an experienced teacher, teacher educator and examiner, Religious Education in the Secondary School is a succinct compendium and has a real classroom applicability offering all trainee RE teachers, as well as those teaching Religious Education as specialists or non-specialists a wealth of support and inspiration.

A simple introduction to some of the beliefs, ways of worship, traditions and festivals of the Hindu religion.

First published in 1984. John M. Hull was a leading figure in the controversies which had surrounded religious education since the late 1960s. This book brings together in one volume 21 of his published papers and articles, which had previously appeared in journals, conferences, reports and books in Belgium, Australia, Canada, the United States, as well as the United Kingdom. This book is essential reading for all teachers, clergy, parents and students seriously concerned with the issues confronting religious education and Christian upbringing in our secular and pluralist world.

Can religion and science co-exist successfully in the classroom? How can you encourage an environment where differing views are treated positively? How do you help students apply their understanding of religious beliefs and scientific theory to a range of ultimate questions? Teaching Religion and Science aims to give RE teachers a pedagogical foundation for the teaching of religion and science topics, and for the teaching of religion as a whole. It will help you to have confidence to include what might appear to be challenging or controversial topics in your lessons, and provides guidance on how religion and science themes can be effectively addressed using appropriate classroom teaching methods. Containing a wealth of practical advice to help you turn pedagogical theory into practice effortlessly, it helps you understand your own attitudes to the subject, as well as those of your students, to ensure successful teaching. Essential guidance includes: activities to help you apply pedagogic practices to your own particular classroom situation advice to help minimise potential difficulties whilst tackling controversial issues links to a wide range of resources and advice on further reading comprehensive lesson plans for ages 11-16 and 16-19. Designed to be a resource for all training and practising R.E. teachers, Teaching Religion and Science offers much needed support for successfully integrating the teaching of religion and science in your classroom.
