The classic guide to working from home and why we should embrace a virtual office, from the bestselling authors of *Rework* “A paradigm-smashing, compulsively readable case for a radically remote workplace.”—Susan Cain, *New York Times* bestselling author of *Quiet Does working from home—or anywhere else but the office—make sense?* In *Remote*, Jason Fried and David Heinemeier Hansson, the founders of Basecamp, bring new insight to the hotly debated argument. While providing a complete overview of remote work’s challenges, Jason and David persuasively argue that, often, the advantages of working “off-site” far outweigh the drawbacks. In the past decade, the “under one roof” model of conducting work has been steadily declining, owing to technology that is rapidly creating virtual workspaces. Today the new paradigm is “move work to the workers, rather than workers to the workplace.”

Companies see advantages in the way remote work increases their talent pool, reduces turnover, lessens their real estate footprint, and improves their ability to conduct business across multiple time zones. But what about the workers? Jason and David point out that remote work means working at the best job (not just one that is nearby) and achieving a harmonious work-life balance while increasing productivity. And those are just some of the perks to be gained from leaving the office behind. Remote reveals a multitude of other benefits, along with in-the-trenches tips for easing your way out of the office door where you control how your workday will unfold. Whether you're a manager fretting over how to manage workers who "want out" or a worker who wants to achieve a lifestyle upgrade while still being a top performer professionally, this book is your indispensable guide.

There is no longer a reason for the daily roll call, of the need to be seen with your butt on your seat in the office. The technology to work remotely and to avoid the daily grind of commuting and meetings has finally come of age, and bestselling authors Jason Fried and David Heinemeier Hansson are the masters of making it work at tech company 37signals. Remote working is the future - and it is rushing towards us. Remote: Office Not Required combines eye-opening ideas with entertaining narrative. It will convince you that working remotely increases productivity and innovation, and it will also teach you how to get it right - whether you are a manager, working solo or one of a team. Chapters include: 'Talent isn't bound by the hubs', 'It's the technology, stupid', 'When to type, when to talk', 'Stop managing the chairs' and 'The virtual water cooler'. The cofounders of the Remote Leadership Institute, Kevin Eikenberry and Wayne Turmel, show leaders how to guide their teams by recalling the foundational principles of leadership. The authors' "Three-O" Model refocuses leaders to think about outcomes, others, and ourselves—elements of leadership that remain unchanged, whether employees are down the hall or halfway around the world.
