An eye-opening exploration of how socials statuses intersect to shape our identities and produce inequalities. In this fully edited and streamlined Race, Gender, Sexuality, and Social Class: Dimensions of Inequality and Identity, Second Edition, Susan Ferguson has carefully selected readings that open readers' eyes to the ways that social statuses shape our experiences and impact our life chances. The anthology represents many of the leading voices in the field and reflects the many approaches used by scholars and researchers to understand this important and evolving subject. The anthology is organized around broad topics (Identity, Power and Privilege, Social Institutions, etc.), rather than categories of difference (Race, Gender, Class, Sexuality) to underscore this fundamental insight: race, class, gender, and sexuality do not exist in isolation; they often intersect with one another to produce social inequalities and form the bases of our identities in society. Nine readings are new to this edition: Michael Polgar/on Jewish assimilation and culture in the U.S. Katherine Frankle/on the 1940 Supreme Court case, Suneri v. Cassagne, concerning racial identity Carla Pfeffer/on transgender identity Michelle Alexander/on the New Jim Crow Richard Lachmann/on the decline of the U.S. as an economic and political power Abby Ferber/on privilege and

Drawing from a wide selection of classic and contemporary works, this best-selling reader includes 56 readings that represent a plurality of voices and views within sociology.

Poverty is a social problem and finding solutions requires us to look closely at our social institutions. This book brings together the most recent quantitative and qualitative data to examine the many dimensions of this problem in the United States.--[book cover]

Drawing from a wide selection of classic and contemporary works, the 60 selections in this best-selling reader represent a plurality of voices and views within sociology. In addition to classic works by authors such as Karl Marx, Max Weber, C. Wright Mills, David Rosenhan, Kingsley Davis and Wilbert Moore, this anthology presents a wide range of contemporary scholarship, some of which provides new treatments of traditional concepts. By integrating issues of diversity throughout the book, Ferguson helps students see the inter-relationships of race, social class, and gender, and the ways in which they have shaped the experiences of all people in society.

"The peril is not preeminently to the nation's purse; it is to its soul. The danger is not so much that we will fail to protect our interests, it is that we will betray our historic ideals. . . . There is no assumption made here that the nation has always lived up to its ideals; it did, however, always look up to them. We believe that it needs to do so again." --from the Introduction In The Imperial Temptation, two eminent foreign policy experts warn that America has made a Faustian bargain in its quest for the leadership of a new world order. In its attempts to address the challenges posed by new global realities, the Bush administration, so argues The Imperial Temptation, has betrayed the fundamental ideals on which this country was founded. Criticizing the all-out military assault on Iraq as a disproportionate and inhumane response to the crisis, Tucker and Hendrickson argue that President Bush seized on the Iraqi invasion of Kuwait to crystallize its vision of a new world order that would reclaim America's position of world leadership. But, in choosing to wage war against Iraq when another alternative was available, the authors write, Bush made the use of force the centerpiece of his vision of world order. As a result, America has fastened on a formula that allows us to go to war with far greater precipitancy that we otherwise might while simultaneously allowing us to walk away from the ruin we create without feeling a commensurate sense of responsibility. By leaving Iraq in chaos, America has succumbed to an imperial temptation without discharging the classic duties of imperial rule. The Imperial Temptation makes an important—and what is sure to be viewed as controversial—contribution to the national debate over the future of U.S. foreign policy and offers a revealing examination of the classic ideas underlying American diplomacy and their relation to the nation's historic purpose.

Of all the crimes to which Palestinians have been subjected through a century of bitter tragedy, perhaps none are more cruel than the silencing of their voices. The suffering has been most extreme, criminal, and grotesque in Gaza, where Ghada Ageel was one of the victims from childhood. This collection of essays is a poignant cry for justice, far too long delayed. I Noam Chomsky There are more than two sides to the conflict between Palestine and Israel. There are millions. Millions of lives, voices, and stories behind the enduring struggle in Israel and Palestine. Yet, the easy binary of Palestine vs. Israel on which the media so often relies for context effectively silences the lived experiences of people affected by the strife. Ghada Ageel sought leading experts/Palestinian and Israeli, academic and activiststo gather stories that humanize the historic processes of occupation, displacement, colonization, and, most controversially, apartheid. Historians, scholars and students of colonialism and Israel-Palestine studies, and anyone interested in more nuanced debate, will want to read this book. Contributors: Yasmeen Abu-Laban, Ghada Ageel, Huwaida Arraf, Abigail B. Bakan, Ramzy Baroud, Samar El-Bekai, James Cairns, Edward C. Corrigan, Susan Ferguson, Keith Hammond, Relä Mazali, Sherene Razack, Tali Shapiro, Reem Skeik, Rafeef Ziadah.

Advancing Family Theories explores two contemporary theories of the family - rational choice theory and transition theory. These diametrically different approaches illuminate what differing theories reveal about families. The book also discusses how meta-theories can assist in building and refining theory and offers insight on the "understanding versus explanation" debate. Advancing Family Theories gives students a precise notion of what a theory is and how theories work in research. The book not only looks at philosophical realms but also examines particular substantive theory to explain and predict family behaviors. Advancing Family Theories is an excellent supplement to Family Theories, Second Edition (SAGE, 2002), or is effective on its own. The book helps students with the task of taking abstract and very general theories and reducing them to a level of specific research models and hypotheses.

On August 9, 2014, Michael Brown, an unarmed African American high school senior, was shot by Officer Darren Wilson in Ferguson, Missouri. For months afterward, protestors took to the streets demanding justice, testifying to the racist and exploitative police department and court system, and connecting the shooting of Brown with the deaths of Trayvon Martin, Eric Garner, and other young black men at the hands of police across the country. In the wake of these protests, the Department of Justice launched a six-month investigation, resulting in a report that Colorlines characterizes as "so caustic it reads like an Onion article" and laying bare what the Huffington Post calls "a totalizing police regime beyond any of Kafka's ghastliest nightmares." Among the report's findings are that the Ferguson Police Department "Engages in a Pattern of Unconstitutional Stops and Arrests in Violation of the Fourth Amendment," "Detain[s] People Without Reasonable Suspicion and Arrest[s] People Without Probable Cause," "Engages in a Pattern of First Amendment Violations," "Engages in a Pattern of Excessive Force," and "Erode[s] Community Trust, Especially Among Ferguson's African-American Residents." Contextualized here in a substantial introduction by renowned legal scholar and former NAACP Legal Defense and Educational Fund president Theodore M. Shaw, The Ferguson Report is a sad, sobering, and important document, providing a snapshot of American law enforcement at the start of the twenty-first century, with resonance far beyond one small town in Missouri.
