car racer driven by secrets. He's the man who must uncover them on national TV. Slide Job: A dirty move in which a race driver skids his/her car sideways in front of another car to steal a position. Sprint car driver Morgan Blade is willing to do anything to help save her critically ill father, even become a contestant on a new TV racing reality show. But once the cameras start rolling, she realizes the cost of the prize money. If the show's sexy producer has his way, her most heartbreaking secrets will be revealed to a worldwide audience. Secrets are Tyler Dalton's business. Forced to produce one more reality show to fulfill his contract, he can't wait to get it over with and move on with his life. However, part of who he is means giving it his best. In reality TV, controversy drives ratings. So despite a combustible attraction to his star, Tyler must unveil the secrets beneath Morgan's fiery facade. But when she becomes more than just another contestant ... will he go

This very readable manual on orienteering is written for people at all levels of competence and includes advice from top international competitors. It provides comprehensive details of orienteering both as a sport and a form of recreation.

Revised and Updated, Featuring a New Case Study How do successful companies create products people can ' t put down? Why do some products capture widespread attention while others flop? What makes

us engage with certain products out of sheer habit? Is there a pattern underlying how technologies hook us? Nir Eyal answers these questions (and many more) by explaining the Hook Model—a four-step process embedded into the products of many successful companies to subtly encourage customer behavior. Through consecutive “hook cycles,” these products reach their ultimate goal of bringing users back again and again without depending on costly advertising or aggressive messaging. Hooked is based on Eyal’s years of research, consulting, and practical experience. He wrote the book he wished had been available to him as a start-up founder—not abstract theory, but a how-to guide for building better products. Hooked is written for product managers, designers, marketers, start-up founders, and anyone who seeks to understand how products influence our behavior. Eyal provides readers with:

habits that stick. • Actionable steps for building products people love.
• Fascinating examples from the iPhone to Twitter, Pinterest to the Bible App, and many other habit-forming products.

From early adolescence, I had committed myself to joining the seemingly growing legions of women pumping their fists with a can-do spirit and a perfect balance of career and family. I fancied myself a textbook candidate for the League of Female Marvels until the narcolepsy and nausea set in, and I chickened out. Sacrificing a few rungs on the corporate ladder to stay home and be a Full-Time Mom (FTM) surely would prove a noble, not to mention more orderly, move. And think of all the discretionary time and energy! Cue laughter. Except within those rare close-knit and blackmail-toting friendships, the more maddening (yet equally funny) stories of

motherhood are seldom shared-until now. From sex to sippy cups, the stories contained herein are told with candor, albeit through the eyes of a woman with a slight flair for the dramatic. Still, you may find them to serve as a mirror, a memoir, or a medicine to your own life-or that of any mom with whom you've ever lived. Occasionally sweet, always straight, *The Myth of The Bonbons* will strike a nerve with many women-and the men who find a well-timed placement of it on their nightstands.

There are many books and resources dedicated to the sport of Road Cycling and Triathlon racing, but none which I know of dedicated to training and racing for Track Cycling. Track Cycling is a niche / cult sport in the US and probably in other Countries; maybe that is why no one has bothered writing a book for this rather small target audience.

The information in this book was gleaned over the years and comes from a variety of sources. It would certainly be great to have a comprehensive book dedicated to tactics & training for Track Cycling. Many new comers to the track have to learn by trial and error which can become quite time consuming and expensive. Track coaches are rare and costly, and only available to elite riders or those who can afford them. Hopefully this book can give you some direction on how to proceed into the fast paced world of Track Cycling.
