They try obstacle racing, combining the endurance challenges of a marathon with the mind- and body-bending rigors of overcoming obstacles along the way. At the heart of this phenomenon is Joe De Sena, the driving force behind the Spartan Race. De Sena overcame his own obstacles—working his way from Queens to Wall Street to legendary extreme athlete—by adhering to a simple philosophy: commit to a goal, put in the work, and get it done. From that philosophy, as played out now for millions across trails, through mud, and up mountainsides, the Spartan Race was born. Filled with unforgettable stories of Spartan racers as well as hard-won truths learned along the course, *Spartan Up!* will help you reach your full potential in whatever you set out to do. false--will follow us wherever we go, accessible to friends, strangers, dates, employers, neighbors, relatives, and anyone else who cares to look. This engrossing book, brimming with amazing examples of gossip, slander, and rumor on the Internet, explores the profound implications of the online collision between free speech and privacy. Daniel Solove, an authority on information privacy law, offers a fascinating account of how the Internet is transforming gossip, the way we shame others, and our ability to protect our own reputations. Focusing on blogs, Internet communities, cybermobs, and other current trends, he shows that, ironically, the unconstrained flow of information on the Internet may impede opportunities for self-development and freedom. Long-standing notions of privacy need review, the author contends: unless we establish a balance between privacy and free speech, we may discover that the freedom of the Internet makes us less free.
