Chaos, investigative journalist Christian Parenti travels along the front lines of this gathering catastrophe--the belt of economically and politically battered postcolonial nations and war zones girding the planet's midlatitudes. Here he finds failed states amid climatic disasters. But he also reveals the

unsettling presence of Western military forces and explains how they see an opportunity in the crisis to prepare for open-ended global counterinsurgency.

Parenti argues that this incipient "climate fascism"--a political hardening of wealthy states-- is bound to fail. The struggling states of the developing world

cannot be allowed to collapse, as they will take other nations down as well. Instead, we must work to meet the challenge of climate-driven violence with a very different set of sustainable economic and development policies.

By one of the most profoundly influential

thinkers of our century,
The Rebel is a classic
essay on revolution. For
Albert Camus, the urge
to revolt is one of the
"essential dimensions" of
human nature,
manifested in man's
timeless Promethean
struggle against the
conditions of his
existence, as well as the
popular uprisings against
established orders

throughout history. And yet, with an eye toward the French Revolution and its regicides and deicides, he shows how inevitably the course of revolution leads to tyranny. As old regimes throughout the world collapse, *The Rebel* resonates as an ardent, eloquent, and supremely rational voice of conscience for our

The life force, also
known as “ spirit, ” is
the essence of being and
the conscious and most
important form of
energy. Living energy is
personal and within our
conscious control, and
by learning about it, we
can use it to transform

our life into vibrant and meaningful expressions of who we really are.

Consciousness is purely energetic and therefore difficult to quantify in mechanistic terms. It is the characteristic of living energy and is the foundation of awareness.

Consciousness is the thread running through all life. Living Energy is an introduction to the
