This is a list of automobile engines developed and sold by the Suzuki Motor Corporation. Suzuki is unusual in never having made a pushrod automobile engine, and in having depended on two-strokes for longer than most. Their first four-stroke engine was the SOHC F8A, which appeared in 1977. Suzuki continued to offer a two-stroke engine in an automotive application for a considerably longer time ...

Most motorists are still under the impression that they need to take their Suzuki back to the main dealer for service or repair, otherwise it would affect their warranty. This is not the case as under European regulations, renewed in 2010, car owners are not obliged to go back to the main dealer during the vehicle's warranty period, and independent garages can service your car leaving your ...
