Make learning numbers fun and easy with Easy As 1, 2, 3! First explore the basic numbers 1 through 10. Then get introduced to numeric words while finding the picture with the right amount of animals. Easy As 1, 2, 3 is the perfect starting point for the youngest of new mathematician in the making!

This book is designed for the drummer who has had some experience playing other styles of music but has a desire to learn some techniques and styles of jazz. It is assumed the reader has a knowledge of notes, measures or bars, time signatures, musical notation, and drum notation. A knowledge of the drum rudiments is also desirable.Though the book is meant as an overview to teach basic and essential jazz techniques, it will take someone who is willing to put in the time and practice from being a total jazz novice to the level of being a competent drummer in the jazz idiom. In addition to learning the essential knowledge required to play jazz, the student will also accomplish many intermediate and advanced techniques.I should note that I wrote this book EXACTLY as I teach jazz drumming techniques in my private lessons. This system has been developed and refined over the years and has given excellent, proven results that have produced some fine drummers, many of whom went on to build careers playing and teaching jazz.I am hoping that this book will inspire the reader and student to delve further into the jazz idiom and develop his or her technique and knowledge to the highest level. and even if the student goes no further in the jazz idiom, I am confident that the book will open doors to other avenues that the drums can take and will be benefit the reader in any style of music he or she chooses to play.

This Cute Peach Theme Wide Ruled Line Paper is the standard for composition or writing books. It is perfect for the following: elementary school kids journal for adults a good choice for the elderly for people who have large handwriting people with visual impairment 'casual' writing notebooks for teens. This Cute Peach Theme is a an awesome gift for fruit lovers, birthday and anniversary.

In this comprehensive resource, Raymond J. Wlodkowski and Margery B. Ginsberg describe how to meet the challenge of teaching intensive and accelerated courses to nontraditional learners and working adults. By making motivation and cultural relevance essential to instruction, they clearly show what instructors can do to enhance learning in classes that can last from three to six hours. Teaching Intensive and Accelerated Courses makes full use of the authors' twenty years of experience researching and teaching accelerated courses, along with selected strategies from Wlodkowski's classic Enhancing Adult Motivation to Learn, to offer tried-and-true practices instructors can use to provide continuously engaging learning. Praise for Teaching Intensive and Accelerated Courses "Part-time teachers who work in accelerated degree programs are an enormous—and grossly underserved—group of adult education faculty. In this indispensable text, Wlodkowski and Ginsberg, two teachers with extensive firsthand experience of accelerated learning formats, provide an accessible, practical, and highly readable guide to engaging learners in these programs. Warm, wise, and down-to-earth, this will be an invaluable resource for teachers in these programs and for faculty developers everywhere."—Stephen D. Brookfield, Distinguished University Professor, University of St. Thomas, Minnesota "Whether you are an experienced teacher of accelerated courses or about to become a new one, I can't think of a better guide and standard-setter than this book. Wlodkowski and Ginsberg have created an instructional theory with practices that mirror the very principles and processes they advocate. Central to their thesis is the need to create conditions that will allow adults' natural desire to learn to emerge; in my view, this perspective is often lost in adult learning courses in the name of efficiency or productivity. That is one of the many reasons this book is refreshing in both its approach and the values it espouses."—Pamela Tate, president and CEO, The Council for Adult and Experiential Learning "What a helpful resource for faculty professional development! The information is strategic without being formulaic. New faculty can use this book as a resource to design their materials and to use their existing skills to help adults learn. The parts of this book that focus on graduate students are extremely insightful."—Victoria Gardner, director, Office of Multicultural Affairs, University of Washington School of Medicine

There is a serial killer loose in America's National Parks. Greyson Beauchene, Head Ranger of Alaska's Denali National Park is certain he will never have to deal with that because his park is too 'out of the way.' However, Ranger Beauchene soon finds out he is dead wrong. Greyson and his two assistants are flown by helicopter into a remote section of the park where hikers have found a casket, one of the biggest indicators the serial killer has found Denali. Greyson's team is joined by one incredibly irritating and extremely demanding FBI Profiler and her two Agents. Very good at what she does, Aspen O'Connell sets out to take control of the crime scene and everyone involved in it, and Greyson is having none of it. Greyson, Aspen and their teams must work together to find this killer before he kills again. Events move quickly as the group pieces together clues from the crime scene and a profile is established. As they work through abduction attempts and visible threats, Greyson and Aspen struggle to put their growing feelings for each other in a place that will keep them focused on finding an evil, evil man and bringing justice to innocent victims.

Darynda Jones, author of The New York Times bestselling series that began with First Grave on the Right, brings us Death and the Girl Next Door, a thrilling Young Adult novel garnering high praise and early buzz from major authors Ten years ago, Lorelei's parents disappeared without a trace. Raised by her grandparents and leaning on the support of her best friends, Lorelei is finally beginning to accept the fact that her parents are never coming home. For Lorelei, life goes on. High school is not quite as painful as she thinks it will be, and things are as normal as they can be. Until the day the school's designated loner, Cameron Lusk, begins to stalk her, turning up where she least expects it, standing outside her house in the dark, night after night. Things get even more complicated when a new guy—terrifying, tough, sexy Jared Kovach—comes to school. Cameron and Jared instantly despise each other and Lorelei seems to be the reason for their animosity. What does Jared know about her parents? Why does Cameron tell Jared he can't have Lorelei? And what will any of them do when Death comes knocking for real? Thrilling, sassy, sexy, and inventive, Darynda Jones's first foray into the world of teens will leave readers eager for the next installment. "Unique, witty, and touching—I LOVED THIS BOOK!" —P.C. Cast, New York Times bestselling author of The House of Night Series

These hilarious essays on life inside and outside a Zen monastery make up the spiritual memoir of Shozan Jack Haubner, a Zen monk who didn ' t really start out to be one. Raised in a conservative Catholic family, Shozan went on to study philosophy (becoming de-Catholicized in the process) and to pursue a career as a screenwriter and stand-up comic in the clubs of L.A. How he went from life in the fast lane to life on the stationary meditation cushion is the subject of this laugh-out-loud funny account of his experiences. Whether he ' s dealing with the pranks of a juvenile delinquent assistant in the monastery kitchen or defending himself against claims that he appeared in a porno movie under the name "Daniel Reed" (he didn ' t, really) or being surprised in the midst of it all by the compassion he experiences in the presence of his teacher, Haubner ' s voice is one you'll be compelled to listen to. Not only because it ' s highly entertaining, but because of its remarkable insight into the human condition.

"Driftwood Spars" by Percival Christopher Wren. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten – or yet undiscovered gems – of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Accessible, undergraduate-level text illustrates the role of algebras of holomorphic functions in the stabilization of a linear control system. Concise, self-contained treatment avoids advanced mathematics. 2009 edition.
