The ISIS Apocalypse | William McCants | Macmillan

The ISIS Apocalypse: The History, Strategy, and Domsday Vision of the Islamic State. By William McCants. St. Martin's Press; 256 pages; \$26.99.

The so-called Islamic State, or ISIS, has inspired young men and women all over the world to commit horrible atrocities in its name. How has the Islamic State surpassed al-Qaeda to become the most popular jihadist group on the planet? Its goal is not only to revive the Islamic empire but also usher in the End of Times - a final battle that will restore the Muslim community to its medieval glory days. And they will not stop until they achieve their mission.

The Islamic State is one of the most lethal and successful jihadist groups in modern history, surpassing even al-Qaeda. Thousands of its followers have marched across Syria and Iraq, subjugating millions, enslaving women, beheading captives, and daring anyone to stop them. Thousands more have spread

terror beyond the Middle East under the Islamic State's black flag. How did the Islamic State attract so many followers and conquer so much land? By being more ruthless, more apocalyptic, and more devoted to state-building than its competitors. The shrewd leaders of the Islamic State combined two of the most powerful yet contradictory ideas in Islam-the return of the Islamic Empire and the end of the world-into a mission and a message that shapes its strategy and inspires its army of zealous fighters. They have defied conventional thinking about how to wage wars and win recruits. Even if the Islamic State is defeated, jihadist terrorism will never be the same. Based almost entirely on primary sources in Arabic-including ancient religious texts and secret al-Qaeda and Islamic State letters that few have seen - William McCants' *The ISIS Apocalypse* explores how religious fervor, strategic calculation, and doomsday prophecy shaped the Islamic State's past and foreshadow its dark future.

- William McCants' *The ISIS Apocalypse* explores how religious fervor, strategic calculation, and doomsday prophecy shaped the Islamic State's past and foreshadow its dark future.

Focusing on apocalyptic manifestations found in ISIS propaganda, this book situates the group's agenda in the broader framework of contemporary Muslim thought and explains key topics in millennial thinking within the spiritual context of modern Islamic apocalypticism. Based on the group's primary sources as well as medieval Muslim apocalyptic literature and its modern interpretations, the book analyses the ways ISIS presents its message concerning the Last Days as a meaningful, inventive and frightening expression of collectively shared expectations relating to the supposedly approaching the End Times.

Explores the belief in Muslim countries that the end of the world is at hand, uncovers the role of apocalypse in Islam, and examines the widespread fear of Christian Zionist domination as an impetus to jihad.

Islamic State (also known as ISIS, ISIL, and Daesh) stunned the world when it overran an area the size of Great Britain on both sides of the Iraq-Syria border in a matter of weeks and proclaimed the birth of a new Caliphate. In this timely and important book, Abdel Bari Atwan draws on his unrivaled knowledge of the global jihadi movement and Middle Eastern geopolitics to reveal the origins and modus operandi of Islamic State. Based on extensive field research and exclusive interviews with IS insiders, Islamic State outlines the group's leadership structure, as well as its strategies, tactics, and diverse methods of recruitment. Atwan traces the Salafi-jihadi lineage of IS, its ideological differences with al Qaeda and

the deadly rivalry that has emerged between their leaders. He also shows how the group's rapid growth has been facilitated by its masterful command of social media platforms, the "dark web," Hollywood blockbuster-style videos, and even jihadi computer games, producing a powerful paradox where the ambitions of the Middle Ages have reemerged in cyberspace. As Islamic State continues to dominate the world's media headlines with horrific acts of ruthless violence, Atwan considers the movement's chances of survival and expansion and offers indispensable insights on potential government responses to contain the IS threat.

An incisive narrative history of the Islamic State, from the 2005 master plan to reestablish the Caliphate to its quest for Final Victory in 2020 Given how quickly its operations have achieved global impact, it may seem that the Islamic State materialized suddenly. In fact, al-Qaeda's operations chief, Sayf al-Adl, devised a seven-stage plan for jihadis to conquer the world by 2020 that included reestablishing the Caliphate in Syria between 2013 and 2016. Despite a massive schism between the Islamic State and al-Qaeda, al-Adl's plan has proved remarkably prescient. In summer 2014, ISIS declared itself the Caliphate after capturing Mosul, Iraq—part of stage five in al-Adl's plan. Drawing on large troves of recently declassified documents captured from the Islamic State and its predecessors, counterterrorism expert Brian Fishman tells the story of this organization's complex and largely hidden past—and what the master plan suggests about its future. Only by understanding the Islamic State's full history—and the strategy that drove it—can we understand the contradictions that may ultimately tear it apart.

"Originally published in hardcover in the United States by Alfred A. Knopf, a division of Penguin Random House LLC, New York, in 2014"--Title page verso.

Online Library The Isis Apocalypse The History Strategy And Domsday Vision Of The Islamic State

Several "pieces first published in The New Yorker recall the path terror in the Middle East has taken from the rise of al-Qaeda in the 1990s to the recent beheadings of reporters and aid workers by ISIS ... They include an ... impression of Saudi Arabia, a kingdom of silence under the control of the religious police; the Syrian film industry, then compliant at the edges but already exuding a feeling of the barely masked fury that erupted into civil war; [and] the 2006-11 Israeli-Palestinian conflict in Gaza, a study in disparate values of human lives. Others continue to look into al-Qaeda as it forms a master plan for its future, experiences a rebellion from within the organization, and spins off a growing web of terror in the world"--

Looking to the future in confronting the Islamic State The Islamic State (best known in the West as ISIS or ISIL) has been active for less than a decade, but it has already been the subject of numerous histories and academic studies—all focus primarily on the past. The Future of ISIS is the first major study to look ahead: what are the prospects for the Islamic State in the near term, and what can the global community, including the United States, do to counter it? Edited by two distinguished scholars at Indiana University, the book examines how ISIS will affect not only the Middle East but the global order. Specific chapters deal with such questions as whether and how ISIS benefitted from intelligence failures, and what can be done to correct any such failures; how to confront the alarmingly broad appeal of Islamic State ideology; the role of local and regional actors in confronting ISIS; and determining U.S. interests in preventing ISIS from gaining influence and controlling territory. Given the urgency of the topic, The Future of ISIS is of interest to policymakers, analysts, and students of international affairs and public policy.
