? Amie Kaufman, quote from These Broken Stars “You're you,' he repeats, his eyes full of grief. 'You're the same girl who crashed on this planet with me, who I dragged through forests and over mountains, who climbed through a shipwreck full of bodies to save my life. You're the same girl I loved, and I love you now.”

These Broken Stars Quotes by Amie Kaufman

These Broken Stars is a well written YA science fiction novel that does circumvent a lot of the cliches in the genre. What begins as a "Titanic" type disaster turns into a survival story with the characters slowly bonding over the course of their ordeal. Lilac LaRue is the daughter of one of the wealthiest men in the galaxy.

Jubilee Chase and Flynn Cormac should never have met. Lee is captain of the forces sent to Avon to crush the terraformed planet's rebellious colonists, but she has her own reasons for hating the insurgents. Rebellion is in Flynn's blood. His sister died in the original uprising against the powerful corporate conglomerate that rules Avon with an iron fist. These corporations make their fortune by terraforming uninhabitable planets across the universe and

recruiting colonists to make the planets livable, with the promise of a better life for their children. But they never fulfilled their promise on Avon, and decades later, Flynn is leading the rebellion.

Desperate for any advantage against the military occupying his home, Flynn does the only thing that makes sense when he and Lee cross paths: he returns to base with her as prisoner. But as his fellow rebels prepare to execute this tough-talking girl with nerves of steel, Flynn makes another choice that will change him forever. He and Lee escape base together, caught between two sides in a senseless war. The stunning second novel in the Starbound trilogy is an unforgettable story of love and forgiveness in a world torn apart by war.

A year ago, Flynn Cormac and Jubilee Chase made the now

infamous Avon Broadcast, calling on the galaxy to witness for their planet, and protect them from destruction. Some say Flynn's a madman, others whisper about conspiracies. Nobody knows the truth. A year before that, Tarver Merendsen and Lilac LaRoux were rescued from a terrible shipwreck???now, they live a public life in front of the cameras, and a secret life away from the world's gaze. Now, in the center of the universe on the planet of Corinth, all four are about to collide with two new players, who will bring the fight against LaRoux Industries to a head. Gideon Marchant is an eighteen-year-old computer hacker known in Corinth's underworld as The Knave of Hearts. He'll climb, abseil and worm his way past the best security measures to pull off onsite hacks that others don't dare touch. Sofia Quinn has a killer smile, and by the time you're done noticing it, she's got you offering up your wallet, your car, and

anything else she desires. She holds LaRoux Industries responsible for the mysterious death of her father and is out for revenge at any cost. When a LaRoux Industries security breach interrupts Gideon and Sofia's separate attempts to infiltrate their headquarters, they're forced to work together to escape. Each of them has their own reason for wanting to take down LaRoux Industries, and neither trusts the other. But working together might be the best chance they have to expose the secrets LRI is so desperate to hide.

Don't miss the breathtaking short story that connects the first two novels in the Starbound trilogy, *These Broken Stars* and *This Shattered World*. Tarver still has nightmares about the night, six months before the Icarus crash, when he rescued a group of civilian researchers being held hostage by brutal mercenaries. Now Tarver

and Lilac must reconcile his memories of that fateful night with the truth that they uncovered on a mysterious planet after the Icarus crashed. Includes a bonus preview chapter from This Shattered World.

When Earth intercepts a message from a long-extinct alien race, it seems like the solution the planet has been waiting for. The Undying's advanced technology has the potential to undo environmental damage and turn lives around, and Gaia, their former home planet, is a treasure trove waiting to be uncovered. For Jules Addison and his fellow scholars, the discovery of an alien culture offers unprecedented opportunity for study... as long as scavengers like Amelia Radcliffe don't loot everything first. Mia and Jules' different reasons for smuggling themselves onto Gaia put them

immediately at odds, but after escaping a dangerous confrontation with other scavvers, they form a fragile alliance. In order to penetrate the Undying temple and reach the tech and information hidden within, the two must decode the ancient race's secrets and survive their traps. But the more they learn about the Undying, the more their presence in the temple seems to be part of a grand design that could spell the end of the human race...
