From the Spanish Inquisition to Nazi Germany to the United States today, ordinary people have often chosen to turn in their neighbors to the authorities. What motivates citizens to inform on the people next door? In *Judge Thy Neighbor*, Patrick Bergemann provides a theoretical framework for understanding the motives for denunciations in terms of institutional structures and incentives. In case studies of societies in which denunciations were widespread, Bergemann merges historical and quantitative analysis to explore individual reasons for participation. He sheds light on Jewish converts' shifting motives during the Spanish Inquisition; when and why seventeenth-century Romanov subjects fulfilled their obligation to report insults to the tsar's honor; and the widespread petty and false complaints filed by German citizens under the Third Reich, as well as present-day plea bargains, whistleblowing, and crime reporting. Bergemann finds that when authorities use coercion or positive incentives to elicit information, individuals denounce out of self-preservation or to gain rewards. However, in the absence of these incentives, denunciations are often motivated by personal resentments and grudges. In both cases, denunciations facilitate social control not because of citizen loyalty or moral outrage but through the local interests of ordinary participants. Offering an empirically and theoretically rich account of the dynamics of denunciation as well as vivid descriptions of the denounced, *Judge Thy Neighbor* is a timely and compelling analysis of the reasons people turn in their acquaintances, with relevance beyond conventionally repressive regimes.

A powerful true story about a Muslim doctor's service to small-town America and the hope of overcoming our country's climate of hostility and fear. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY PUBLISHERS WEEKLY In 2013, Ayaz Virji left a comfortable job at an East Coast hospital and moved to a town of 1,400 in Minnesota, feeling called to address the shortage of doctors in rural America. But in 2016, this decision was tested when the reliably blue, working-class county swung for Donald Trump. Virji watched in horror as his children faced anti-Muslim remarks at school and some of his most loyal patients began questioning whether he belonged in the community. Virji wanted out. But in 2017, just as he was lining up a job in Dubai, a local pastor invited him to speak at her church and address misconceptions about what Muslims practice and believe. That invitation has grown into a well-attended lecture series that has changed hearts and minds across the state, while giving Virji a new vocation that he never would have expected. In *Love Thy Neighbor*, Virji relates this story in a gripping, unforgettable narrative that shows the human consequences of our toxic politics, the power of faith and personal conviction, and the potential for a renewal of understanding in America's heartland.

From the New York Times bestselling author, a first novel as spellbinding as her acclaimed nonfiction At thirty-four, Nick Walsh is a broken, deeply cynical man. Since the violent deaths of his parents thirteen years earlier, he has been living alone in his childhood home in the suburban Midwest, drinking, drugging, and debauching himself into oblivion. A measure of solace is provided by his newly found relationship with Monica, a mysterious woman who seems to harbor as many secrets as he does. Obsessed with understanding the circumstances surrounding his parents' deaths and deranged by his relentless sorrow, Nick begins a campaign of spying on his neighbors via hidden cameras and microphones he has covertly installed in their houses. As he observes with amusement and disbelief all the strange, sad, and terrifying things that his neighbors do to themselves and to one another, and as he, in turn, learns that he is being stalked, he begins to slowly unravel the shocking truth about how and why his parents died. At once unsettling and moving, humorous and horrifying, *Thy Neighbor* explores the nature of grief, the potential isolation of suburban life, and who we really are when we think no one is watching. What readers and critics have admired in Norah Vincent's nonfiction is completely unleashed in this vivid and provocative novel.

As seen on ID, these two true-crime thrillers follow a neighbors' quarrel that turns violent and cyber-bullying that explodes in a double murder. *Murder Thy Neighbor*: Ann Hoover is a nice woman but she's come to hate her neighbor. Roy Kirk moved in next door with plans to renovate. But as the weeks go by, his DIY construction turns to shambles. When Ann takes him to court, Kirk's retaliation will be shockingly gruesome (with Andrew Bourelle). *Murder IRL*: Jenelle Potter has always been better at connecting with people through social media. With overprotective parents, she hasn't had very many options to meet people, until she links up with Billy. But her feelings for Billy are unreciprocated, causing Jenelle to start a virtual war—a war that enters the real world (with Max DiLallo).

In this book, Lenn E. Goodman writes about the commandment to "love thy neighbor as thyself" from the standpoint of Judaism, a topic and perspective that have not often been joined before. Goodman addresses two big questions: What does that command ask of us? and what is its basis? Drawing extensively on Jewish sources, both biblical and rabbinic, he fleshes out the cultural context and historical shape taken on by this Levitical commandment. In so doing, he restores the richness of its material content to this core articulation of our moral obligations, which often threatens to sink into vacuity as a mere nostrum or rhetorical formula. Goodman argues against the notion that we have this obligation simply because God demands it -- a position that too readily makes ethics seem arbitrary, relativistic, dogmatic, authoritarian, contingent or just unpalatable. Rather he proposes that we learn much about how we ought to think about God from what we know about morals. He shows that natural reasoning and appeals to scripture, tradition, and revelation reinforce one another in ethical deliberation. For Goodman, ethics and theology are not worlds apart connected only by a kind of narrow one-way passage; the two realms of discourse can and should inform each other. Engaging the philosophers, including Aristotle, Spinoza, and Kant, and assembling three-thousand years worth of Jewish textual masterpieces, Goodman skillfully weaves his Gifford Lectures, which he delivered in 2005, into an indispensable work.
