~~Troubleshooting Briggs~~

~~Stratton Small Engine~~

Disconnected, dirty or  
fouled spark plugs are  
common causes for

# Online Library T roubleshooting

engines that won't start.

For small engines, spark  
plugs typically need to

be replaced every

season or after 25 hours

of use. You should also

check to make sure the

spark plug gap is set

correctly. An improper

spark plug gap could

lead to engine knocking

and poor performance.
