We hear them sometimes, from travelers passing through. They talk as though we were doing human sacrifice, and he were a real dragon. Of course that's not true: he may be a wizard and immortal, but he's still a man, and our fathers would band together and kill him if he wanted to eat one of us every ten years. He protects us against the Wood, and we're grateful, but not that grateful." Agnieszka loves her valley home, her quiet village, the forests and the bright shining river. But the corrupted Wood stands on the border, full of malevolent power, and its shadow lies over her life. Her people rely on the cold, driven wizard known only as the Dragon to keep its powers at bay. But he demands a terrible price for his help: one young woman handed over to serve him for ten years, a fate almost as terrible as falling to the Wood. The next choosing is fast approaching, and Agnieszka is afraid. She knows—everyone knows—that the Dragon will take Kasia: beautiful, graceful, brave Kasia, all the things Agnieszka isn't, and her dearest friend in the world. And there is no way to save her. But Agnieszka fears the wrong things. For when the Dragon comes, it is not Kasia he will choose. "Journalist Grace Olmstead wrestles with the question of what we owe the places we come from: How do we square our desire for self-improvement, economic opportunity, and growth with the damage and brain drain left in our wake? She tells the stories of townspeople who no longer know each other, of high schoolers who want to get away, and contrasts them with the struggles of the few stickers who have tried to put down roots. She delves into the government policies and big agriculture practices that make it almost impossible for America's farm towns to survive. And she paints a dark picture of what will happen to America if we become a nation where, blown around by market whims and individual preferences, no one stays"--

"An intimate, lesson-filled story of what happens when one of America ' s best-known garden writers transplants herself, rooting in to a deeper partnership with nature than ever before." —Margaret Roach, author of A Way to Garden When Page Dickey moved away from her celebrated garden at Duck Hill, she left a landscape she had spent thirty-four years making, nurturing, and loving. She found her next chapter in northwestern Connecticut, on 17 acres of rolling fields and woodland around a former Methodist church. In Uprooted, Dickey reflects on this transition and on what it means for a gardener to start again. In these pages, follow her journey: searching for a new home, discovering the ins and outs of the landscape surrounding her new garden, establishing the garden, and learning how to be a different kind of gardener. The surprise at the heart of the book? Although Dickey was sad to leave her beloved garden, she found herself thrilled to begin a new garden in a wilder, larger landscape. Written with humor and elegance, Uprooted is an endearing story about transitions—and the satisfaction and joy that new horizons can bring.

How a German city became Polish after World War II With the stroke of a pen at the Potsdam Conference following the Allied victory in 1945, Breslau, the largest German city east of Berlin, became the Polish city of Wrocław. Its more than six hundred thousand inhabitants—almost all of them ethnic Germans—were expelled and replaced by Polish settlers from all parts of prewar Poland. Uprooted examines the long-term psychological and cultural consequences of forced migration in twentieth-century Europe through the experiences of Wrocław's Polish inhabitants. In this pioneering work, Gregor Thum tells the story of how the city's new Polish settlers found themselves in a place that was not only unfamiliar to them but outright repellent given Wrocław's Prussian-German appearance and the enormous scope of wartime destruction. The immediate consequences were an unstable society, an extremely high crime rate, rapid dilapidation of the building stock, and economic stagnation. This changed only after the city's authorities and a new intellectual elite provided Wrocław with a Polish founding myth and reshaped the city's appearance to fit the postwar legend that it was an age-old Polish city. Thum also shows how the end of the Cold War and Poland's democratization triggered a public debate about Wrocław's "amputated memory." Rediscovering the German past, Wrocław's Poles reinvented their city for the second time since World War II. Uprooted traces the complex historical process by which Wrocław's new inhabitants revitalized their city and made it their own.

Awarded the 1952 Pulitzer Prize in history, The Uprooted chronicles the common experiences of the millions of European immigrants who came to America in the late nineteenth and early twentieth centuries—their fears, their hopes, their expectations. The New Yorker called it "strong stuff, handled in a masterly and quite moving way," while the New York Times suggested that "The Uprooted is history with a difference—the difference being its concerns with hearts and souls no less than an event." The book inspired a generation of research in the history of American immigration, but because it emphasizes the depressing conditions faced by immigrants, focuses almost entirely on European peasants, and does not claim to provide a definitive answer to the causes of American immigration, its great value as a well-researched and readable description of the emotional experiences of immigrants, and its ability to evoke the time and place of America at the turn of a century, have sometimes been overlooked. Recognized today as a foundational text in immigration studies, this edition contains a new preface by the author.

In 2001 Jace Clayton was an unknown DJ who recorded a three-turntable, sixty-minute mix and put it online to share with friends. Within weeks, Gold Teeth Thief became an international calling card, whisking Clayton away to play a nightclub in Zagreb, a gallery in Osaka, a former brothel in Sao Paolo, and the American Museum of Natural History. Just as the music world made its fitful, uncertain transition from analog to digital, Clayton found himself on the front lines of creative upheavals of art production in the twenty-first century globalized world. Uproot is a guided tour of this newly-opened cultural space. With humor, insight, and expertise, Clayton illuminates the connections between a Congolese hotel band and the indie-rock scene, Mexican rodeo teens and Israeli techno, and Whitney Houston and the robotic voices is rural Moroccan song, and offers an unparalleled understanding of music in the digital age.

Who are the Jews from Arab countries? What were relations with Muslims like? What made Jews leave countries where they had been settled for thousands of years? What lessons can we learn from the mass exodus of minorities from the Middle East? Lyn Julius undertakes to answer all these questions and more in Uprooted, the culmination of ten years of work studying these issues. Jews lived continuously in the Middle East and North Africa for almost 3,000 years. Yet, in just 50 years, their indigenous communities outside Palestine almost totally disappeared as more than 99 percent of the Jewish population fled. Those with foreign passports and connections generally left for Europe, Australia, or the Americas. Some 650,000—including a minority of ideological Zionists—went to Israel. Before the Holocaust they constituted ten percent of the world's Jewish population, and now over 50 percent of Israel's Jews are refugees from Arab and Muslim countries, or their descendants. This same process is now repeating in Christian and other minority communities across the Middle East. This book also assesses how well these Jews have integrated into Israel and how their struggles have been politicized. It charts the growing clamour for recognition, redress and memorialization for these Jewish refugees, and looks at how their cause can contribute to peace and reconciliation between Israel and the Muslim world. *** "Lyn Julius provides a riveting account of a fascinating, but disgracefully overlooked subject. Anyone who really wants to understand the Middle East, Israel and world history, should read it." --Tom Gross, former Middle East correspondent, Sunday Telegraph; contributor to The Guardian and Wall Street Journal[Subject: Middle East Studies, Jewish Studies, History, Sociology, Politics]

The Indian Independence Act of 1947 granted India freedom from British rule, signaling the formal end of the British Raj in the subcontinent. This freedom, though, came at a price: partition, the division of the country into India and Pakistan, and the communal riots that followed. These riots resulted in the deaths of an estimated 1 million Hindus and Muslims and the displacement of about 20 million persons on both sides of the border. This watershed socioeconomic – geopolitical moment cast an enduring shadow on India ' s relationship with neighboring Pakistan. Presenting a perspective of the middle-class refugees who were forced from their homes, jobs, and lives with the withdrawal of British rule in India, Home, Uprooted delves into the lives of forty-five Partition refugees and their descendants to show how this epochal event continues to shape their lives. Exploring the oral histories of three generations of refugees from India ' s Partition—ten Hindu and Sikh families in Delhi, Home, Uprooted melds oral histories with a fresh perspective on current literature to unravel the emergent conceptual nexus of home, travel, and identity in the stories of the participants. Author Devika Chawla argues that the ways in which her participants imagine, recollect, memorialize, or “ abandon ” home in their everyday narratives give us unique insights into how refugee identities are constituted. These stories reveal how migrations are enacted and what home—in its sense, absence, and presence—can mean for displaced populations. Written in an accessible and experimental style that blends biography, autobiography, essay, and performative writing, Home, Uprooted folds in field narratives with Chawla ' s own family history, which was also shaped by the Partition event and her self-propelled migration to North America. In contemplating and living their stories of home, she attempts to show how her own ancestral legacies of Partition displacement bear relief. Home—how we experience it and what it says about the “ selves ” we come to occupy—is a crucial question of our contemporary moment. Home, Uprooted delivers a unique and poignant perspective on this timely question. This compilation of stories offers an iteration of how diasporic migrations might be enacted and what “ home ” means to displaced populations.

Jimmy's garden on the Lower East Side of Manhattan—an assortment of stones and garbage bags, five tires, a chair, a skid, a refrigerator shelf, some ailanthus trees and goldfish, a wooden fence, and a pond with water carried by hand from a nearby fire hydrant—was recently bulldozed by the city. Jimmy then disappeared. Anna's garden is surrounded by a tall chainlink fence and filled with a menagerie of dolls and stuffed animals. The animals are whole, the dolls are maimed. Anna is a recluse who speaks to no one. The neighbors say she was in a concentration camp as a child. Gardens have always been associated with wealth and leisure, viewed as an addition to home. In this remarkable book a landscape architect and a photographer show us, in word and pictures, gardens built by homeless or impoverished New York City inhabitants. Like traditional gardens, these spaces are designed for pleasure, social activity, or private retreat. Unlike traditional gardens, they are connected to a more active and ephemeral use of the land. Transitory gardens speak the language of our times: here we find the reuse of nearly everything discarded, a sparing use of water and plant materials, an economical treatment of space, and a penchant for icons, toys, flags, and symbols of freedom and nationality. The gardens expand our definition of what makes a garden and what its design means for its creator. Diana Balmori's commentary and Margaret Morton's photographs combine with the garden-makers' own descriptions to encourage us to take note of gardens grown in unlikely places, on abandoned, littered lots, bounded by debris. By focusing on what homeless people make not for material comfort but from social and spiritual need, the book offers insight into both the meaning of landscape and the place of a garden in the life of an individual under duress.
