This collection of Buddhist tales tell of Amrapali, an accomplished dancer who commanded the love and admiration of an entire town, and of Upagupta, who was just a poor monk. Amrapali craved peace; Upagupta's bearing exuded contentment. Amrapali depended on the adulation of her audience; Upagupta spurned the attentions of the rich and famous. Their stories were different, but the Buddha's wise teachings linked their lives – and the lessons to be learned from them.

This book deals with various aspects of performance in India; especially that related to dance and dance-drama. Rather than being a description of the various dance forms of India, it attempts to discuss the social equations and cultural ideas that a

performance attempts to portray. In this sense, a performance is a narrative. At the same time, performances also deal with well-known narratives from the religious traditions of India, often redefining and recounting them in the process of performance. A study of these aspects is important to understand the kind of equations that define these discourses on the performance narratives. Chapter I shows the different forms of dances that are described in the iconographic canons and also the famous dance treatise the Natyashastra, correlating them with the sculptures of dance available in the temples. Here, the temples of south India datable to 6th- 13th centuries have been studied for this purpose. Attempt is made to study the gender equations that are expounded

through these dance images and texts, as also the correlation between the audience and the performance and how these ideas are intertwined with the religious images. Chapter II deals with four Sanskrit burlesque plays written in the ancient period, which reverse social equations and classical dramatic representations through the genre of satire. Almost every elite-class person, generally idealized in the classical Sanskrit plays, is lampooned here. Issues of audience perception and the reception of this kind of reversed images of the ideal figures of the society are discussed in this chapter. Chapter III deals with the aesthetics of eroticism that form the basis of many Indian classical dances, how they are intertwined with the notion of devotionism in Hinduism and how they are negotiated in the

Indian classical dances in our contemporary period. A case study is done here of Odissi, the classical dance from the eastern state of Orissa, which draws extensively from the temple sculptures of dance. Chapter IV shows that sacred narrative in India is not always a means of glorifying the divine. Rather, sometimes it is also used to satirize the established notions of religiosity and of divinity. This forms the basis of this very interesting semi-classical dance-drama form called Ottan Thullal from the southern state of Kerala. Kathakali, the classical dance-drama and Mohiniattam, the classical dance from Kerala have dominated the scene so much that this form of dance-drama has been overshadowed and it is little known to the world outside Kerala, even in India. There is not much

Scholarship on Ottan Thullal. This chapter deals with this form and the manner in which it uses the idiom of satire to narrate the religious legends. Chapter V is a study of the Mithila narratives from the eastern region of Mithila in Bihar to understand the ways in which gender equations in the Mithila society influence the making of these narratives. There is a discussion of the nature of “folk narratives” in this chapter. Chapter VI takes some folk forms of performance and visual narratives from different states of India to show how social equations such as power hierarchy, gender and caste dimensions are negotiated. All these use the traditional religious space to work out these equations. Chapter VII on one hand is a comparative study of two Hindi films made in 1960s, based on the lives of two women dancers

from ancient India. One of them is a historical figure and the other is a figure. On the other hand, this is an attempt to show how the narratives of these women dancers are remodeled in literary as well as the cinematic medium, every time these narratives are retold. Effort is made to show how the cultural memory of the ancient history of India that the modern narrators of these stories have been received as a process of acculturation, which influences this recasting of narratives in literature as well as in film. It is also shown that this process of narration through cultural memory is not a new phenomenon, since it occurred even in the ancient period when narrative was being remodeled to present in a new form before the audience.

The last one-and-a-half years in India have been defined by the anti-graft agitation led by Anna Hazare. His key lieutenant, Arvind Kejriwal, has played a central role in the movement. In 2012, as it became clear that the political establishment was not going to accede to the main demand of the movement - to pass the Lokpal Bill. Team Anna demanded the setting up of a Special Investigative Team to probe corrupt politicians. On 25 July 2012, Kejriwal, along with two of his colleagues and Anna Hazare, sat on a fast to press this demand. Fictional biography of the sixteenth century poet Tulsidas, who is revered as the greatest of the indian poets.

Ironically, women are still victimised in our society. They have been at the receiving end, from the very beginning of our civilization and culture. Cutting across the regional and political barriers, their lot has been the same. The wrong perception, prevalent in our society is that they are born to be subservient to men and they must be confined to child-bearing and rearing only. There has been a growing trend of violence against women, more so with hunger and greed for material things. Progressive changes in personal lifestyle, living standards and varied growth, caused by urbanisation

and changes in social ethos, all contribute to violent attitudes and tendencies, towards women, which have resulted in an increase in crimes against women. This book would prove to be of worth for all scholars, researchers and social workers, who may prefer to know about the subject. They would find it, easy to read and comprehend. It would certainly be an asset for them.
