A good street photographer must be possessed of many talents: an eye for detail, light, and composition; impeccable timing; a populist or humanitarian outlook; and a tireless ability to constantly shoot, shoot, shoot, shoot and never miss a moment. It is hard enough to find these qualities in trained photographers with the benefit of schooling and mentors and a community of fellow artists and aficionados supporting and rewarding their efforts. It is incredibly rare to find it in someone with no formal training and no network of peers. Yet Vivian Maier is all of these things, a professional nanny, who from the 1950s until the 1990s took over 100,000 photographs worldwide—from France to New York City to Chicago and dozens of other countries—and yet showed the results to no one. The photos are amazing both for the breadth of the work and for the high quality of the humorous, moving, beautiful, and raw images of all facets of city life in America ' s post-war golden age. It wasn ' t until local historian John Maloof purchased a box of Maier ' s negatives from a Chicago auction house and began collecting and championing her marvelous work just a few years ago that any of it saw the light of day. Die Entdeckung des völlig im Verborgenen entstandenen Werks der 2009 im Alter von 83 Jahren verstorbenen Vivian Maier ist eine photohistorische Sensation. Aus Frankreich stammend, verdiente Vivian Maier ihren Lebensunterhalt in den 50er und 60er Jahren als Kindermädchen in Chicago und New York. Auf eigene Rechnung und Gefahr und außerhalb jeder Öffentlichkeit führte sie eine Art Doppelleben als Street Photographer. Ihr Entdecker John Maloof legt ihr Werk in unserem Buch erstmals einer staunenden internationalen Öffentlichkeit vor. Einige der Photographien wurden kürzlich in Deutschland in der Galerie von Hilaneh von Kories in Hamburg gezeigt.

Many know her as the reclusive Chicago nanny who wandered the city for decades, constantly snapping photographs, which were unseen until they were discovered in a seemingly abandoned storage locker. When the news broke that Maier had recently died and had no surviving relatives, Maier shot to stardom almost overnight. Bannos contrasts Maier's life as it has been created, mostly by the men who have profited from her work. Maier was extremely conscientious about how her work was developed, printed, and cropped, even though she also made a clear choice never to display it.

The definitive monograph of American photographer Vivian Maier, exploring the full range and brilliance of her work and the mystery of her life, written and edited by noted photography curator and writer Marvin Heiferman; featuring 250 black-and-white images, color work, and other materials never seen before; and a foreword by New York Times bestselling author Laura Lippman. Vivian Maier's story—the secretive nanny-photographer during her life who becomes a popular sensation shortly after her death—has, to date, been pieced together only from previously seen or known images she made and the handful of facts that have surfaced about her life. During her lifetime she shot more than 100,000 images, which she kept hidden from the world. In 2007, two years before her death, Chicago historic preservationist John Maloof discovered a trove of negatives, and roll upon roll of undeveloped film in a storage locker he bought at auction. They revealed a surprising and accomplished artist and a stunning body of work, which Maloof championed and brought to

worldwide acclaim. Vivian Maier presents the most comprehensive collection and largest selection of the photographer's work—created during the 1950s through the 1970s in New York, Chicago, and on her travels around the country—almost exclusively unpublished and including her previously unknown color work. It features images of and excerpts from Maier's personal artifacts, memorabilia, and audiotapes, made available for the first time. This remarkable volume draws upon recently conducted interviews with people who knew Maier, which shed new light on Maier's photographic skill and her life.

The first definitive monograph of color photographs by American street photographer Vivian Maier. Photographer Vivian Maier's allure endures even though many details of her life continue to remain a mystery. Her story—the secretive nanny-photographer who became a pioneer photographer—has only been pieced together from the thousands of images she made and the handful of facts that have surfaced about her life. *Vivian Maier: The Color Work* is the largest and most highly curated published collection of Maier's full-color photographs to date. With a foreword by world-renowned photographer Joel Meyerowitz and text by curator Colin Westerbeck, this definitive volume sheds light on the nature of Maier's color images, examining them within the context of her black-and-white work as well as the images of street photographers with whom she clearly had kinship, like Eugene Atget and Lee Friedlander. With more than 150 color photographs, most of which have never been published in book form, this collection of images deepens our understanding of Maier, as its immediacy demonstrates how keen she was to record and present her interpretation of the world around her.

The definitive biography that unlocks the remarkable story of Vivian Maier, the nanny who lived secretly as a world-class photographer, featuring nearly 400 of her images, many never seen before, placed for the first time in the context of her life. Vivian Maier, the photographer nanny whose work was famously discovered in a Chicago storage locker, captured the imagination of the world with her masterful images and mysterious life. Before posthumously skyrocketing to global fame, she had so deeply buried her past that even the families she lived with knew little about her. No one could relay where she was born or raised, if she had parents or siblings, if she enjoyed personal relationships, why she took photographs and why she didn't share them with others. Now, in this definitive biography, Ann Marks uses her complete access to Vivian's personal records and archive of 140,000 photographs to reveal the full story of her extraordinary life. Based on meticulous investigative research, *Vivian Maier Developed* reveals the story of a woman who fled from a family with a hidden history of illegitimacy, bigamy, parental rejection, substance abuse, violence, and mental illness to live life on her own terms. Left with a limited ability to disclose feelings and form relationships, she expressed herself through photography, creating a secret portfolio of pictures teeming with emotion, authenticity, and humanity. With limitless resilience she knocked down every obstacle in her way, determined to improve her lot in life and that of others by tirelessly advocating for the rights of workers, women, African Americans, and Native Americans. No one knew that behind the detached veneer was a profoundly intelligent, empathetic, and inspired woman—a woman so creatively gifted that her body of work would become one of the greatest photographic discoveries of the century.

Updated with new material to celebrate the ten year discovery of Vivian Maier's work. This is the only book that tells the life story of Vivian Maier in words and pictures. Known as "the nanny photographer," Maier became an Internet sensation after her photos were put online in 2009. Since then, Maier's breathtaking pictures--which show everyday life in mid-century America--have earned her recognition of one of the masters of photography. Presenting her photographs alongside revealing interviews with those who knew her best, this volume puts Vivian Maier's work in context and creates a moving portrait of her as an artist. To better understand Maier, authors Richard Cahan and Michael Williams studied census records, ship manifests and interviewed every person they could find who knew Maier, from her childhood days in the French Alps to the families whose children she cared for in the United States. They combined this biographical information, much of it unreported, with more than 300 photographs that she took starting in 1949 to create the first comprehensive record of her life story.

Great photographs change the way we see the world; *The Ongoing Moment* changes the way we look at both. Focusing on the ways in which canonical figures like Alfred Stieglitz, Paul Strand, Walker Evans, Andr e Kert sz, Edward Weston, Dorothea Lange, Diane Arbus, and William Eggleston have photographed the same things—barber shops, benches, hands, roads, signs—award-winning writer Geoff Dyer seeks to identify their signature styles. In doing so, he constructs a narrative in which these photographers—many of whom never met—constantly encounter one another. The result is a kaleidoscopic work of extraordinary originality and insight.
